

UNCONDITIONAL SURRENDER IS INTERPRETATION OF ANSWER ROULERS CAPTURED IN GREAT ALLIED THRUST IN BELGIUM

ONLY BY FOLLOWING IN THE THE PATH OF BULGARIA CAN GERMANY PREVENT INVASION

Armies are Being Pounded to Pieces in the Field and Resistance is Growing Less Daily; Must Accept Terms Sooner or Later.

THAT IS THE BELIEF OF ALL MILITARY OFFICIALS

(By Associated Press)

WASHINGTON, Oct. 15.—Unconditional surrender by Germany was the interpretation put on President Wilson's answer to the German plea for peace by both American and Allied officials here. Only by absolute surrender they said can the enemy now prevent the terminating evidence of his defeat—invasion of Germany.

There is no doubt among officers that sooner or later the enemy will be compelled to accept the uncompromising terms. The German army is being pounded to death in the field they declared, and the only thing Germany can hope to save from the wreckage is to prevent the war being carried across her border and that can be accomplished only at the price of putting herself as utterly at the mercy of the victors, as did Bulgaria.

**PARISIANS PLEASED WITH
REPLY TO ARRESTED WILSON**
PARIS, Oct. 15.—President Wilson's reply to the German plea for peace today in extra editions of the afternoon newspapers published at noon today. It immediately became the absorbing topic of discussion in all public places. The tone of the sentiment was distinctly favorable to the reply.

**VON HINDENBURG
HIMSELF SOUGHT ARMISTICE**
WASHINGTON, Oct. 15.—It was Field Marshal Von Hindenburg himself and not the supposedly pacifist premier, Prince Maximilian who caused the German government to accept President Wilson's peace terms and seek an armistice, according to a dispatch which reached Washington today through official sources.

**WILSON'S REPLY STIMULATES
FOURTH LOAN DRIVE**
WASHINGTON, Oct. 15.—Liberty Loan subscriptions have been stimulated by President Wilson's reply to the German peace note according to reports to the treasury today from loan committees throughout the country.

**TURKEY WANTS TO
AFFIRM FINAL STATUS**
AMSTERDAM, Oct. 15.—The first step taken by the new Turkish cabinet headed by Tewfik Pasha says a dispatch from Vienna under date of Sunday to the West-Zeitung was to dispatch a note to Austria-Hungary to the effect that owing to the military situation Turkey was obliged to conclude a separate peace with the Entente.

The Central Powers requested Turkey to await the result of the exchange of notes with President Wilson but to reply so far has been received from Turkey.

AT LAST MINUTE BARBARIANS WOULD CEASE OUTRAGES

(By Associated Press)

AMSTERDAM, Oct. 15.—The German government has proposed to France that in common with her ally France undertake to refrain from bombarding the large towns of northern France and enter into an agreement with Germany to permit at any rate a proportion of the population of Valenciennes to pass into the French lines, says an official statement from Berlin.

The Berlin government in making this proposal represented itself as unable to prevent the eastward flight of the population of Valenciennes owing to their fear that the Allies would bombard the towns. The proposal was made through the Swiss government.

MAY NOT OPEN QUARTERS

Board of Health Votes Down Petition of Elks' Club Members.

At a meeting yesterday afternoon the board of health decreed to grant permission to the Elks to reopen the lunch and reading rooms at the home in East Crawford street. The club telegraphed Sae Commissioner of Health Royer for permission so to do and the commissioner received the material to be local board.

All such service at other lodges or clubs is covered by the resolution adopted.

HOSPITAL FOR GRIP CASES TO BE OPEN TOMORROW

Beds Have Been Installed and Renovating of Place Completed.

APPEAL FOR NURSES MADE

Urgent Need for Aid in Private Homes and at the Emergency Hospital is Pointed Out by Mrs. Alex. B. Hood, Chairman of Committee in Charge.

The emergency hospital to be opened by the Baltimore & Ohio railroad in the Maccabee building which has recently purchased by that company will be ready for use by tomorrow morning to put the building in readiness, immediately started work on cleaning out the rooms to be used.

Mrs. S. S. McCreary has been placed in charge of the hospital. The big auditorium will be used for the beds and all patients will be taken there unless more cases than can be accommodated develop. Then other parts of the building can be taken over for the same purpose.

Plaster was applied to the ceiling last night in some places where it had fallen off and today a force is at work scrubbing out the auditorium and the lobby. The work of cleaning up the building will be completed by this evening.

Beds from rooms in the dormitory of the building have been transferred to the auditorium. With the completion of the cleaning the hospital will be ready to receive cases.

Mrs. A. D. Hood, chairman of the special committee of the Red Cross, has an urgent appeal to the women of the city both married and single who have had any experience what ever in caring for the sick to volunteer for aid in the homes of the city and at the Baltimore & Ohio Y. M. C. A. hospital in the Maccabee building.

It has been found nearly impossible to secure trained nurses all of those in the city now being fully engaged, hence it becomes absolutely necessary to obtain other persons to assist in this capacity. The committee in charge has found a number of homes where there is immediate need of attention by some person who has even slight experience in caring for the sick.

Several homes have been found where every member of the household has been stricken with influenza in some of its forms. Unless volunteers come to the rescue considerable distress and perhaps fatal consequences will result from lack of attention.

Persons who are willing to have a part in this very necessary work of mercy at this time are requested to report to Mrs. Hood or to the Red Cross headquarters as promptly as possible. Council may appropriate money to aid in fighting the plague in event of an epidemic.

REV. EVERHART IS CRITICALLY ILL WITH PNEUMONIA

Disease Follows Attack of Spanish Influenza at Camp Taylor Where He is in Training.

A message this morning from Camp Taylor Ky. told of the critical illness of Rev. W. J. Everhart pastor of the United Presbyterian church, Connellsville who is in training here for an army chaplain.

Several days ago following a cold Rev. Everhart developed Spanish influenza. The message today received by Mr. Everhart said he is suffering from pneumonia and that his condition is very serious.

Mrs. Everhart will leave tonight for her husband's bedside.

"THE BATTLE OF TEXAS IS FIERCE"

Lieut. H. C. Brown, visitor at the Arlington Field Houston Tex. formerly of the electrical engineering staff of the West Penn Power company in a letter to R. M. Leiberger says that the men in training at this station are anxious to get across notwithstanding the battle of Texas is fierce. Lieutenant Brown was recently transferred from Dallas to Arlington Field to take a special course in aerial bombing.

TEXT OF THE REPLY OF THE PRESIDENT TO GERMANY

The unqualified acceptance by the present German government and by a large majority of the Reichstag of the terms laid down by the President of the United States in his address to the Congress of the United States on the eighth of January, 1918, and in his subsequent addresses, justifies the President in making a frank and direct statement of his decision with regard to the communications of the German government on the eighth and twelfth of October, 1918.

It must be clearly understood that the success of negotiation and the conditions of an armistice are matters which must be left to the judgment and the advice of the military advisers of the government of the United States and the Allied governments, and the President feels it his duty to say that no armistice can be accepted by the government of the United States which does not provide absolutely satisfactory safeguards and guarantees of the maintenance of the present military supremacy of the armies of the United States and the Allies in the field.

He feels confident that he can safely assume that this will also be the judgment and decision of the Allied governments.

The President feels that it is also his duty to add that neither the government of the United States nor he is quite sure, the governments with which the government of the United States is associated as a belligerent, will consent to consider in armistice so long as the armed forces of Germany continue to offend and inhuman practices which they persist in.

At the very time that the German government approaches the government of the United States with proposals of peace its submarines are engaged in sinking passenger ships at sea, and not the ships alone, but the very bonds in which their passengers and crews seek their way to safety, and in their present intention withdrawal from Flanders and France the German armies are pursuing a course of wanton destruction which has always been regarded as in direct violation of the rules and principles of civilized warfare. Cities and villages, not destroyed, are being stripped of all their contents, not only property but often the very inhabitants. The nations associated against Germany can not be expected to agree to a cessation of arms while acts of inhumanity, spoliation and desolation are being continued which they justly look upon with horror and burning hearts.

It is necessary, also in order that there may be no possibility of misunderstanding that the President should very solemnly call the attention of the government of Germany to the language and plain intent of one of the terms of peace which the German government has now accepted. It is contained in the address of the President at Mt. Vernon on the fourth of July last.

It is as follows: "The destruction of every arbitrary power anywhere that can separately, secretly and of its own choice disturb the peace of the world or if it cannot be peacefully destroyed, at least its reduction to virtual impotence."

The power which has hitherto controlled the German nation is of the sort here described. It is within the choice of the German nation to alter it. The President's words were not intended to constitute a condition precedent to peace. It is for the peace of the world and the German people themselves. The President feels bound to say that the whole process of peace will, in his judgment, depend upon the definiteness and the satisfactory character of the guarantee which can be given in this fundamental matter. It is indispensable that the governments associated against Germany should know beyond a peradventure with whom they are dealing.

The President will make a separate reply to the royal and imperial government of Austria-Hungary.

UTMOST ENERGY IS URGED UPON LOAN WORKERS IN CITY

Only By Diligent Efforts Here Will It Be Possible to Raise Quota.

COUNTY TOTAL \$6,130,400

Effort is Being Made in Connellsville to Have the Campaign Completed by Thursday When Next Gathering of the Team Works is to be Held.

Workers on the Liberty Loan are urged to begin immediately and work with the utmost energy from now until Thursday to raise the necessary amount of money to cover the quota of \$5,607,500 assigned to Connellsville and its districts. It is hoped to close the campaign on Thursday by doing this it will be necessary to secure many more subscriptions.

F. T. Norton, chairman of the Connellsville district and who knows the rural sections cannot be depended on to raise sufficient money to cover the quota and that it will be necessary for the terms he has raised. He suggested that by putting out of gear into their efforts and exerting every energy between now and Thursday that the deficit could be made up.

Unless the people of Connellsville and vicinity subscribe more generously to the loan it will not meet with success here. The quota cannot be reached otherwise unless more will at (Continued on Page Two)

FIRST IMPORTANT CITY IN BELGIUM FORCED FROM HUNS

Battle is Staged on Anniversary of Battle of Jena; First Day's Progress Rapid; Penetration Being Average of Four Miles.

TEN THOUSAND GERMANS TAKEN PRISONERS

(By Associated Press)

PARIS, Oct. 15.—Marshal Loeu, in his new stroke in Flanders is driving a formidable wedge between the German lines at Bruges and Ghent in Belgium and Lille in France. The decisive manner in which King Albert carried out his attacks Monday has further widened the wedge which threatens to split the German forces in two unless the enemy falls back speedily on a wide front.

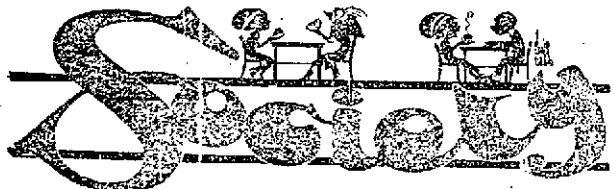

PARIS Monday, Oct. 15.—Roulers has been taken by the Allies. This city which before the war numbered 25,000 inhabitants is the first important Belgian town in which the Germans have been driven.

This morning on the anniversary of the battle of Jena, which was fought October 14 1806 the battle flamed up along the Flanders front and the first day's progress gives reason for high hope.

Under the command of King Albert of Belgium the British Belgian and French armies attacked at 5 35 o'clock. There was no artillery preparation but the troops advanced under a creeping curtain of fire of extreme power. Following the gales which have been blowing for several days the weather turned fine and the troops progressed methodically and in a most satisfactory way.

Machine gun fire was very fierce to the rear of the British and at 6 o'clock the British advanced some four miles to the east of Courtrai for the British four miles to the east of Courtrai and two and a half miles to the east of Tournai. The British are now in the center of the city and the honor of capturing the city of Roulers and the capture of the city.

Nearly 10,000 Germans have already been taken and a large amount of material and guns have been taken. Mention is made of the capture of a machine gun which was taken with the forces a few miles back. The British reserves which have been hurrying up to the front lines did not escape the activities of the Allied aviators and gunners. One machine gun was captured by the British. When the occupying British troops entered the city they were met by the German forces which were fighting with the British reserves which have been hurrying up to the front lines did not escape the activities of the Allied aviators and gunners. One machine gun was captured by the British. PERSONALS.

Miss Ida Walk of Poplar Grove spent Saturday in Pittsburgh.

Miss Clementine Rottler, who had been slightly ill at her North Pittsburgh street home, is able to be about again.

The best place to shop after all, Brownell Shoe Company.—Adv.

Miss Pearl Keck left last evening for New York to study piano and organ. She will be gone for an indefinite period.

Miss Joan McGuire, who has been seriously ill at her home in Highland avenue, was said today to be improved.

Never again until the war is over will women have the opportunity to buy such beautiful shoes. Downs' Shoe Store is now showing. The government has stopped the manufacturers from making lovely shoes. Buy early before they are all gone, because they are going fast.—Adv.—12-7.

Mr. and Mrs. C. C. Robinson, Attorney and Mrs. S. Ray Shelby, Attorney and Mrs. J. S. Christy, Miss McKnight of Belle Vernon, Miss Angus of Houston, Miss J. Alice Horner, Misses Mary and Ada Long, Betty Christ, Hannah and Gertrude Lyons and Alice Christ formed a party that spent the week end at Killarney Inn.

Mrs. Felix McArdie and daughter Cecelia were visiting in Scottsdale and Mount Pleasant over Sunday.

Misses Mary McMahon and Mary King were visiting in Brownsville over Sunday.

Sergeant Joseph P. Allen, stationed at Camp Lee, Va., has recovered from an attack of influenza.

Leo R. Mullen has returned to Fort Washington after spending the week end at his home at Trotter. He expects to leave soon for overseas service with the heavy artillery.

NINE DRAFTES LEAVE

Boards for Districts Nos. 2 and 5 Send Men to College.

Several draftees from both Districts 2 and 5 left this morning for the University of Pittsburgh and Pennsylvania State College. The men reported at the armory yesterday afternoon for roll call and those who lived in this city or within a short ride spent the night at their homes.

The men who went to the University of Pittsburgh left on Baltimore & Ohio train No. 69 at 9:30 o'clock. They were Archie Cooper, George A. Rose, Dunbar, and Ralph B. Anderson, of Conneltsville R. D., sent by District No. 5; and Ivan A. Dietz, Garibaldi Penfold and George F. Strawn of this city, sent by District No. 2. Thomas Davidson was sent to Carnegie Tech at Pittsburgh this morning by Board No. 2.

John Dewey McManus of this city was sent to State College by Board No. 2 and Board No. 5 sent Hobson H. Newell of Mill Run. The men who left for State College went over the Pennsylvania railroad at 9:26 o'clock.

UNDER CARE OF FAYETTE COUNTY PHYSICIANS

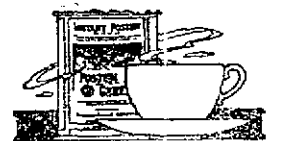

Relatives here yesterday were notified that Lindsey Rockwell, formerly of Revere, had been wounded slightly in action. The news coming in the form of a cablegram from Rockwell addressed to his mother, at Revere, contained the interesting information that he was being attended by Dr. S. A. Bantz, a captain in the Medical Reserve corps. Rockwell is with the 519th Infantry, Company A, and trained at Camp Lee.

Banks Open.

To accommodate Liberty Bond purchasers all the banks of Conneltsville will be open for receiving subscriptions and payments on Liberty Bonds only on Wednesday, Thursday and Friday evenings from 7 to 8:30. You are urged to subscribe and make first payment not later than Friday.—Adv-15-21.

The Grim Reaper

FLOYD N. STILLWAGON.

The funeral of Floyd N. Stillwagon, who died early Saturday morning after a brief illness of whooping cough and pneumonia, was held Sunday afternoon at the home of his grandparents, Mr. and Mrs. A. H. Snow, of Broad Ford, with Rev. J. H. Lamberton, pastor of the Methodist Protestant church of Conneltsville, officiating. The deceased was the son of Mr. and Mrs. Newton Stillwagon and also a grandson of Mrs. Mac Stillwagon.

MARY ELLEN GRANNELL.

Miss Mary Ellen Grannell, 31 years old, died yesterday at her home in Pitta street following an illness of pneumonia. A younger sister, Miss Regina Grannell is also seriously ill with pneumonia. The deceased was a daughter of the late Mr. and Mrs. C. A. Grannell of Smithfield. Funeral services will be held tomorrow afternoon at 2 o'clock and the body will be taken to Greensburg for burial. The trip will be made in automobiles. She is survived by the following brothers and sisters: Miss Regina Grannell, Mrs. Paul Moser, L. J. Grannell of Smithfield, Charles in California, Vincent F. and John H. in France.

ANTHONY GALEATA.

Anthony Galeata, 18 months old, died yesterday at the home of his parents, Mr. and Mrs. S. Galeata. Funeral services will be held this afternoon at 1:30 o'clock with interment in St. Joseph's cemetery.

FRANCIS FALCONE.

Following an illness of pneumonia, Francis Falcone, 16 years old, died at 7:30 o'clock last night. A brother, Vincent Falcone, was buried yesterday morning following an illness of the same disease. Funeral services will be held Wednesday at 9 o'clock with interment in the St. Joseph cemetery.

MISS CORA MAY MARTIN.

Miss Cora May Martin, aged 25 years, died of pneumonia this morning at her home in North First street, West Side. She was a daughter of Mr. and Mrs. Thomas J. Martin. Funeral services, private, will be held Thursday at 2 o'clock.

FAYETTE COUNTY IS ASKED TO INCREASE BROOD SOWS BY 275

Call is Urgent, Says Statement by the Farm Bureau. In Order That Demand for Meat May Be Met.

In accordance with the food production program for 1918 Fayette county has been asked to increase her brood sows by 275 over that number which was bred last fall for spring litters. The approximate number of brood sows held over last fall for breeding purposes in Fayette county was 2,840. An increase of 275 will meet the allowance we are asked for. The announcement of the bureau continues:

"Farms that have been carrying one or more brood sows can well afford to increase this number at least one brood sow for the year 1918-19. Extra brood sows should be selected from late fall pigs of last year or from an early spring litter of this season. Only sows of desirable type should be held over as brood stock. Straight squarely placed legs, a strong bone, a well arched back, a long deep side, a full ham; these are the main points to be considered in selecting a sow for breeding purposes.

"The Farm Bureau is now laying plans for solicitation for this increase similar to that made for increased wheat acreage, when Fayette county was asked to increase her wheat acreage by 700 acres. The results show we will have at least 3,500 acres increase."

HENRY ASHE DIES

Brother of Supt. S. P. Ashe Victim of Influenza and Pneumonia.

Henry T. Ashe, brother of Stanley P. Ashe, superintendent of the Conneltsville schools, died last night in Washington from pneumonia, following Spanish influenza, according to a telegram received this afternoon from Superintendent Ashe, who went to the hospital Sunday. Mr. Ashe was engaged in recreation work for the government.

Mr. Ashe was a son of Rev. and Mrs. A. J. Ashe, his father having been pastor of the local Methodist Episcopal church for a number of years. He leaves his wife and a daughter, Anna, and three brothers and a sister—Stanley P., Conneltsville; Frank, in the naval service, now on his way to the West Indies; Fred, Johnston, and Mrs. Mary Alter, wife of W. R. Alter, Parnassus.

UTMOST ENERGY IS UPON LOAN WORKERS IN THIS CITY

Continued from Page One.

tain its quota but this city will have to subscribe heavier to go over the top with the big total that has been assigned this city for the Fourth loan.

As yet the city has not even attained a total equal to that raised in the third loan, which indicates a lack of interest or patriotism somewhere. The men on the canvassing teams have increased their subscriptions to double the first amounts taken out and if the citizens of this city would follow their lead the quota would be attained without difficulty.

If permission of the board of health

is secured a luncheon will be held in the Masonic temple at noon Thursday which will be the final gathering of the teams to close the campaign. Robert Norris, chairman of the executive committee, is urging upon the team captains the necessity of permitting no relaxation of effort between now and the closing day of the campaign. The fact that the members of the teams themselves raised \$184,000 by increasing their own subscriptions at the last meeting ought to be, Mr. Norris thinks, an example to persons outside of the team membership to show what they can do.

"The men of these teams," said Mr. Norris this morning, "have spent almost three weeks of their time in canvassing the city. In some instances they have more than doubled their original subscriptions, while other subscribers have not more than scratched the ground, so to speak. They must understand that the teams cannot do all the work and make all the subscriptions, too."

Official figures on the loan total in the county yesterday took another step forward of \$131,100, passing the six million mark by that figure.

The following is the official report issued by loan headquarters last evening:

District	Quota	Subscrip.
Belle Vernon	\$40,000	\$155,300
Brownsville	87,100	
South Brownsville	130,000	\$25,150
Brownsville twp.	27,300	41,900

WALTER BIXLER WELL

Cable Message Is Received From Prison Camp at Stargard

Walter S. Bixler, member of the Medical Detachment of the 110th Infantry, has been transferred from Rastatt prison to Stargard, in the northern part of the empire, according to a cable message received Sunday from the young man by his parents, Mr. and Mrs. A. O. Bixler. In response to a message filed by the father the following was received:

"Prisoner, Camp Stargard, Well." Desirous of getting information, Bixler decided Saturday to attempt to get in touch with his son. Through Attorney J. Kirk Renner he communicated with Congressman Thomas S. Crago. The return cablegram was received Sunday. It came through the Red Cross.

Arrested for Speeding.

There were no hearings at police court this morning. The only arrest made during the night was when Arthur Latney was picked up for violating the speed law. He was arrested by Chief of Police W. B. Bowers on Crawford avenue, West Side, about 6:50 o'clock. Latney left a \$5 forfeit.

A Love Story.

Prof. Henri Bergson, at a dinner in New York, talked of love with that gay and sparkling philosophy which has made him famous in Europe. "Love, in the sense of passion," he said, "love does not live long. There's a little bubble above love which has a deal of truth in it."

"Love, so the fable runs, bent over a beautiful maiden, when Cynicism sneered and said:

"Oh, yes, her eyes are stars, and her mouth is a rose, but twenty years hence she will be fat and round-backed, with a double chin, just like her mother. You, though—ha, ha, ha!—you, though, will be blind old."

"No," Love answered, calmly. "I simply shan't be there to see."

Enter the Airplane Coat

Here is the new airplane coat. It made its bow and was introduced to an admiring and expectant world at the style show held recently at the Morrison hotel in Chicago. There those who think up and work out the apparel wherever it will be shall be clothed, come together and present the results of their efforts to the merchants who are to pass judgment upon them.

There was a great gathering of handsome new coats at the style show, but this airplane coat was the most interesting of them all. Are we really about to fly and need a special kind of coat for doing it? Or, firmly convinced that we will never get our carriage up to the flying point, are we going to have to forego this wonderful new achievement in coats? We are not. It may be a long time before we soar in an airplane, but an airplane coat will shortly be among those present in many a smart wardrobe.

This airplane coat was in temper and made of one of those soft, cozy-looking cloths, something like a thick velvet, that have been christened with any number of fascinating but forgettable names. It is a straight-

line, apple, nucleus garment; everything about it in generous proportions—the sleeves, pockets, grille and buckle—even the buttons bespeaking the genius that designed it.

Its most distinguishing feature is the square cape, lined with a silk brocade, that falls to the waistline at the back. This cape at the bottom is gathered into a band of fur and you would not suspect that by simply turning it up and fastening the band of fur about the head, by the very simple means of snap fasteners, the cape becomes a lovely turban with drapery falling about the head at each side.

The sleeves are very long and finished with bands of fur like that on the cape. The fur may have been mole skin or some other short-haired pel—flying squirrel ought to feel much at home on an airplane coat. The chances are that this coat will find itself protecting many a fair wearer who does her flying in a motorcar or on a pair of skates, but it is prophetic of a day that is surely coming when she will take to wings.

Julia Bonnelly

Inference Obvious.

Lord Rossmore, author of "Things I Can Tell," used sometimes to "taste a night of it" with Jimmy Davis, and on one occasion slept at Davis' house after a somewhat late carousal. Hitting his bell in the morning, it was answered by William, the butler, and the following colloquy ensued:

"Good morning, my lord," I said briskly. "Good morning, my lord." "Quite early, isn't it?" "Well—not so early, my lord." "I'm, I thought it was. Anyhow, I'll get up and have some breakfast. I suppose nobody's down yet?" "Oh, yes, my lord, your brother and Lord Mandeville have breakfasted some time ago." "Better then. I thought I'd be first. What did they have, William?" "Smoked 'addock, my lord." "Did they?" I cried. "What a drunkard's breakfast! What do you think I had better have, William?" He eyed me coldly, but not unkindly, and then said with marked meaning, "Smoked 'addock, my lord."

"Little Things as an Index."

"Here," said an observer. "was a machine upon which appeared the name plate of the manufacturer; a small and not essential feature, but this plate had been set on true, and then the screws by which it was held in place had all been turned up until the slots in their heads all showed in precisely the same position, alike, uniform."

"Whoever put this plate on made a nice, finished job of it. End I should be inclined to think that a shop that had such pride in even the minor details of its work, would do good work throughout."

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also preserves that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

1917 COKE OUTPUT LEAD EASILY HELD BY PENNSYLVANIA

Made 23,816,420 Tons of Beehive, or 71 Per Cent of Total in the U. S.

BY-PRODUCT 19 PER CENT

Beehive Production in the U. S. Fell Off 2,296,676 Tons, Notwithstanding Gain of 3,082 in Number of Ovens; By-Product Ovens Gain 691.

The production of beehive coke during the year 1917 by states, as given in the report compiled by C. E. Lasher, geologist in charge of coal and coke statistics, shows that Pennsylvania easily leads all other producing states with a total of 23,816,420 tons, or a trifle over 71 per cent of the total production of the United States. West Virginia came second in point of tonnage, its total being 2,638,728, or but 8.5 per cent. Alabama with a production of 2,551,823 tons, or 5.1 per cent, stood in third place. Colorado's total of 1,112,440 tons placed that state fourth or next ahead of Virginia with a production of 1,394,230 tons.

The following table shows the number of beehive ovens and the production during 1917 in the several states and the gain or loss in output as compared with 1916:

State	Ovens	Output	Gain or Loss
Alabama	5,493	2,551,823	324,761
Colorado	1,967	1,112,440	58,960
Georgia	151	25,582	7,531
Kentucky	801	22,153	10,612
N. Mexico	1,134	571,671	74,867
Ohio	1,294	41,242	43,242
Penn'a.	44,777	23,816,420	3,082
Tennessee	1,278	176,688	45,780
Virginia	1,329	1,394,230	61,898
Washington	184	47,181	24,282
W. Virginia	2,554	2,638,728	611,260

Totals 68,687 33,167,547 2,296,676
Gain ovens 691
Compared with the unusual loss of 2,296,676 tons, or 7 per cent, in beehive coke the production of by-product coke increased from 19,069,261 to 22,452,280 tons, a gain of 3,383,019 tons, or 17 per cent. Pennsylvania also led in the production of by-product coke, the total being 4,095,665 tons, or about 19 per cent of the total. Ohio came second with 1,546,476 tons, or 11 per cent. Indiana followed third with 1,546,718 tons; Alabama fourth with 2,551,823 tons; Illinois fifth with 2,289,633 tons.

The production by states, gains and losses compared with 1916 and the number of active ovens are shown by the following table:

State	Active Ovens	Output	Gain or Loss
Alabama	5,493	2,551,823	324,761
Colorado	1,967	1,112,440	58,960
Georgia	151	25,582	7,531

AS YOUNG AS YOUR KIDNEYS

The secret of youth is ELIMINATION OF POISONS from your body. This alone, you can live to be a hundred and enjoy the good things of life with as much "zip" as you did when you were a sprightly youth. Keep your body in good condition, that's the secret. Watch the kidneys. The kidneys and digestive organs are the main centers. The kidneys filter and purify the blood. All the blood passes through your kidneys once every three minutes. They strain or filter out the impurities. That is their work. Keep them clean and in proper working condition and you have nothing to fear. Drive the poisonous wastes and deadly uric acid accumulations from your system. Take GOLD MEDAL HAIRMAN Oil Capsules at intervals and you will always be in perfect working order. You will feel strong and vigorous. Nervous and restless will be banished and your face will radiate youth and health. GOLD MEDAL HAIRMAN Oil Capsules are imported direct from the laboratories at Haarlem, Holland. They are not a patent medicine, but a guaranteed remedy which has been used by the sturdy Dutch for over 200 years and which has helped them to develop into one of the strongest and healthiest races in the world. Get them from your druggist. Do not take a substitute. In sealed packages—three sizes.

"Dr. Caldwell's Syrup Pepsin is certainly a most pleasant and efficient solution of the 'castor oil problem' that confronts most mothers." (From a letter to Dr. Caldwell written by Mrs. Chan. Daly, 412 Shonnard St., Syracuse, N. Y.)

For most children a mild laxative, administered occasionally, is all that is necessary to assure normal regularity and consequent good health. Dr. Caldwell's Syrup Pepsin is a pleasant-tasting combination of simple laxative herbs with pepsin that acts gently, yet effectively; children like it and take it readily.

DRESSMAKER GIVES ADVICE

"I underwent a surgical operation for gall stones 5 years ago, was in the hospital 4 weeks. For 1 year I felt better, but then my old symptoms and pains returned, and I have suffered ever since. Four weeks ago on the advice of a lady I tried Mayer's Wonderful Remedy, and I now feel like a new woman. I have a number of friends who suffer as I did and I am advising all to try this valuable medicine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. A. A. Clarke and druggists everywhere.—Adv.

CAMP WORKERS KEEP UP SPIRITS OF BOYS DURING "FLU" EPIDEMIC

Are Really Bigger Than Ever Providing Amusement and Entertainment to the "Strut-lies."

Besides upstaging the usual military routine, the epidemic of Spanish influenza on the activities of the various war service workers in the camps on Long Island. Camp Upton has been completely quarantined so far as concentration of the men at huts and social service buildings is concerned and Camp Mills is under almost the same restrictions now, as well as the smaller military centers on the island. Shutting the men out of the Knights of Columbus, Y. M. C. A. and other similar buildings, however, has not forced idleness upon the workers of these organizations. On the contrary, it has impelled them to draw upon their ingenuity and resourcefulness. In desire to continue giving service, and as a result they are busier than ever.

With most of the soldiers confined to their "company streets," the workers have had to "bring the Y. M. C. A. to them," or the K. of C. or whatever organization they happened to serve. Big boxes of writing paper, envelopes, stamps, eating chocolate, cigarettes, soap, candles, tooth paste and the sundry odds and ends wanted by soldiers are being carried around from the "huts" to the individual units, where the soldiers make quick work of it. Boxing bouts and baseball games are taboo for the time being, but the men requiring tonic of excitement are not obliged to forego it. The K. of C. and "Y. M. C. A." men are carrying the athletics into the company streets, stirring up games like "duck on the rock," "sloop tag" and volley ball. Still others are displaying their versatility in the role of song leaders.

The American Library association has received permission to keep the camp libraries open so the men may obtain books, but they must carry them to their individual tents to read, not being allowed to remain in the building any length of time. At the Y. M. C. A. Business Houses there is

little of the usual congregation, the establishments being used only as a meeting place for the men and their visitors, who while conversing must go outdoors, where the danger of spreading the disease is less.

In brief, the emergency has changed the entire "home life" of the camps, but it is proving a valuable lesson to the war service workers in developing their resourcefulness and ability to adapt themselves to changed conditions which will stand them in good stead later on, especially in the cases of those who eventually go overseas to serve with the American Expeditionary Forces.

CHEMICAL SUPREMACY

Of Germany Based on Theft of Inventions, Not Original Discoveries.

During the last year or two many of Germany's claims, based on false-hoods, for great inventive genius, as well as for great culture in other lines, have been so completely exposed that the history which must yet be written of Germany will be entirely different from that which might have been written a few years ago, for the truth is now beginning to appear.

Germany is not the great leader in arts and sciences and chemistry. Germany has been successful in stealing the inventions of others and exploiting them for her own benefit. There is no ground, says Prof. Townes, R. Leigh of Georgetown, Ky., upon which Germany can base her boasted glory of leadership in chemistry, save upon her theft from the investigators and scientists of France, England, Italy and America.

Also a Great Master.

The persons in the gallery who were most impressed with the exhibition of the pictures lent by J. Pierpont Morgan were two small girls, one eight and the other ten years of age. Uncertainly they spelled out the names of the paintings, which conveyed very little; and they were truly moved, of course, by the dashing Duchesse of Devonshire and the small Princess of Wales, and the wonderfully engaging young lady by the unknown Spanish painter. Lastly they came to the portrait of Mr. Morgan himself, and from this they appeared directly to the attendant on guard. "Please, sir," they asked, "did Mr. Morgan paint all these pictures?" The guard was a true gentleman. "No, sir," he answered.

Belgium After the War.

Attention is called by the Belgian Bulletin to the fact that in the district of Liege after the war the minimum of the grain of Liege will re-organize in still greater proportions the food service which they had created for the miners, but which the food shortage forced them to stop. The syndicated coal mines in question will open establishments to furnish to the workers food, clothing, shoes, etc., at cost.

Old Favorite Tonic Laxative

When constipated, it soothes you and you feel in every way well. It purges the system and is a health-giver.

Celery King

is sold in every drug store in the land. The one for indigestion, colds, and fevers and cures. It is a health-giver and a purgative.

What happens when you wash?

We all use soap—do you know why? We all know that water alone will not remove dirt, but how does soap do it?

The moment soap and water come into contact with the skin, soap separates into two parts.

One part dissolves and absorbs the impurities in the pores. The other part forms a lather which takes up these impurities together with dirt and dust, and carries them off into the water.

A new standard for cleansing— antiseptic cleanliness

The skin contains millions of open mouths. Through these mouths the skin filters out perspiration at the rate of a quart every twenty-four hours. In this perspiration are acids and waste matter from the system. These, together with excess oils from the skin, are constantly accumulating on the face, hands and body, and gathering up dust and impurities.

It was the necessity of really cleansing the pores of the skin—keeping them antiseptically clean—that gave the big-gest soap makers in the world the idea of making Lifebuoy Health Soap.

Purifies every pore—keeps the skin clear and healthy

When you wash with Lifebuoy, it forms a big, bubbling, creamy lather. This cleanses the skin thoroughly.

At the same time, the healthful anti-

septic which Lifebuoy contains is carried right into the pores of the skin. This purifies the skin—leaves it antiseptically clean. It counteracts the effects of acids and impurities that keep accumulating on the skin—prevents skin irritations—keeps the skin clear—lovely—glowing with health!

The odor tells you why

The "health" odor in Lifebuoy is found in no other soap. It is not a perfume—not the odor of a medicine—but a pure, hygienic odor that tells you instantly why the soap benefits your skin. Stimulating, invigorating, refreshing! One whiff of Lifebuoy, and you realize why it cleanses so thoroughly—why it purifies and protects—why it improves your skin.

Get a cake of Lifebuoy at any grocery or drug store. Start using it today for your face—hands—bath—and watch your skin improve.

Lever Bros. Co., Cambridge, Mass.

The Health Soap

UNCLE SAM IS A MAN OF BROAD VISION

He foresaw the great importance of properly providing for our army and navy at home and abroad.

Adequate provision has been made for the proper conservation of food and fuel.

LIBERTY LOAN COMMITTEEMEN RAISE \$25,000

Amount is Quickly Realized by Workers Doubling Subscriptions.

COUNCIL SESSION IS SUMMONED

Solons Said to Be Ready to Adopt Resolution Pending Approval of the Board of Health in Matter of Locking Door of the H.K.S. Club Rooms.

Special to The Courier.
MOUNT PLEASANT, Oct. 15.—The business men held a meeting with the Liberty Loan committee last evening and \$25,000 was raised. The men were very enthusiastic over the meeting. Most of them doubled their subscription.

Council Meeting Called.
A special meeting of council has been called for Wednesday evening when the members of the board of health—President Dr. J. W. Shuler, Secretary M. A. King, Milton Metz, Cal. Glance and Samuel Binns and Health Officer H. C. Jackette—have been asked to appear. Council expects to stand behind the board in the controversy with State Health Commissioner B. Franklin Rorer and will draw up a resolution to the effect and forward a copy to Dr. Rorer.

Diphtheria Reported.
The nine-year-old child of Mr. and Mrs. Carl Lakin is ill with diphtheria. The child was a student in Grade 3 Church street school building and the school room was closed yesterday while the room was fumigated.

Roy Lindsay.
Roy Lindsay, son of Mr. and Mrs. S. W. Lindsay of Swanton, died yesterday of Spanish influenza. The body will be brought here on Wednesday afternoon and buried in the Mount Pleasant cemetery. The funeral party will arrive at Towns shortly after 2.30.

Daughter Born.
Mr. and Mrs. Myer Steele of North Diamond street are the parents of a daughter, born at their home there.

Another Influenza Victim.
Wood was received here yesterday of the death of Stephen Pusky, a barber formerly of this place, with Spanish influenza at his home near Philadelphia.

Personal.
Miss Madge Stevenson spent Sunday with Mrs. H. F. Barclay in Pittsburgh. H. C. Jacquelin and Mr. and Mrs. Arthur Ward and family returned Sunday from Coatesville.
